SENTENCE	0	1	2	3	4	5	6	7	8
ANSWER	B								

TAREA 2

You will hear an interview. In the following summary, complete the blanks with the correct information. Each answer may contain ONE OR TWO WORDS.

The Math Myth

Emily Hindford interviews Andrew Hacker, a (0) political science professor to talk about his new book "The Math Myth". Professor Hacker believes math requirements at university are not helping the economy because they make it more difficult for many students to (1) _____ college.

At the age of (2) _____ high-school students are expected to study and understand a wide range of mathematical areas which is something Hacker finds (3) _____.

As Hindford points out, in the 20th century, (4) _____ students actually took algebra or geometry. Professor Hacker then explains how, in large cities, you could easily find (5) _____ programs like Baking or Manual Arts where students acquired more practical skills . Nowadays, however, we want all youngsters to be prepared to undertake a university degree.

Professor Hacker is particularly concerned about American high-schools completion (6) _____ since one out of five Americans drops out of high-school before finishing.

Even though Hacker agrees that the situation today begins to (7) _____, he still thinks that it's essential not to see advanced maths as a requirement for every student. On the contrary, what his (8) _____ should do is make math classes interesting.
