

Read this article about Melanie's daily routines, then read the statements and mark them as true (T) or false (F):

My name is Melanie Smith. I'm sixteen years old and I live in Oxford in England. From Monday to Friday my daily routine is always the same.

I always get up at eight o'clock in the morning and I have a shower. Then I go downstairs and I have a quick breakfast with my family. I usually have toast and a glass of milk, but I never have bacon and eggs. After breakfast I make my bed and then I go to school.

I stay at school from nine o'clock in the morning until half past three in the afternoon. On Tuesdays and Thursdays I stay later because I have guitar lessons. On the other days I usually go shopping with my friends. When I get home I often take our dog, Laila, for a walk.

I always do my homework from five o'clock until half past six or sometimes seven o'clock in the evening. Then, we all have dinner together. After dinner, my brother and I usually do the washing-up. I often watch TV for about an hour after dinner. If I don't watch TV, I sometimes call my friend Sally for a chat. I always go to bed before eleven o'clock.

After such a busy day, I usually feel sleepy and ready for my comfortable bed!
